THE CONVENTION BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE REPUBLIC OF VENEZUELA FOR THE AVOIDANCE OF DOUBLE TAXATION AND THE PREVENTION OF FISCAL EVASION WITH RESPECT TO TAXES ON INCOME AND CAPITAL, SIGNED AT CARACAS ON JANUARY 25, 1999

LETTER OF SUBMITTAL

DEPARTMENT OF STATE,
Washington, D.C. June 1, 1999.

The PRESIDENT,
The White House.

THE PRESIDENT: I have the honor to submit to you, with a view to its transmission to the Senate for advice and consent to ratification, the Convention Between the Government of the United States of America and the Government of the Republic of Venezuela for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income and Capital, together with a Protocol, signed at Caracas on January 25, 1999 ("the Convention").

This Convention will be the first such Convention between the United States of America and the Republic of Venezuela. This Convention generally follows the pattern of the 1996 U.S. Model Tax Convention while incorporating some provisions found in recent tax treaties between the United States and developing nations. It provides for maximum rates of tax to be applied to various types of income, protection from double taxation of income, and exchange of information, and it contains rules making its benefits unavailable to persons who are engaged in treaty shopping. The proposed withholding rates, while in some respects higher than those in the U.S. Model, are the same as those in other U.S. treaties with developing countries and other Venezuela tax treaties. Also, the withholding rates reflect Venezuela's territorial system of taxation and the objective of establishing an adequate single level of tax on cross-border investment income. Like other U.S. tax conventions, this Convention provides rules specifying when income that arises in one of the countries and is attributable to residents of the other country may be taxed by the country in which the income arises (the "source" country).

Pursuant to Article 10, dividends from direct investments are subject to tax by the source country at a maximum rate of five percent. The ownership threshold for direct investment is ten percent, consistent with other modern U.S. tax treaties, in order to facilitate direct investment. Other dividends are generally taxable at 15 percent. Under Article 12, royalties for the use of industrial, commercial, or scientific equipment derived and beneficially owned by a resident of a Contracting State are subject to tax at a maximum rate of five percent by the source country; all

other royalties are subject to tax at a maximum rate of ten percent.

Under Article 11 of the proposed Convention, most interest arising in one Contracting State and owned by a resident of the other Contracting State is subject to taxation by the source country at a maximum rate of ten percent. However, interest income received by a financial institution (including an insurance company) is subject to tax at a maximum rate of 4.95 percent, and interest earned on government debt and debt guaranteed by government agencies is exempt from taxation by the source country.

The reduced withholding rates described above do not apply if the beneficial owner of the income is a resident of one Contracting State who carries on business in the other Contracting State and the income is attributable to a permanent establishment or fixed base situated in that other State. If the income is attributable to a permanent establishment, it will be taxed as business profits, and, if the income is attributable to a fixed base, it will be taxed as a payment for independent personal services.

The maximum rates of withholding tax described in the preceding paragraphs are subject to the standard anti-abuse rules for certain classes of investment income found in other U.S. tax treaties and agreements

The taxation of capital gains described in Article 13 of the Convention follows the format of the U.S. Model. Gains and income derived from the sale of real property and from real property interests may be taxed by the State in which the property is located. Likewise, gains or income from the sale of personal property, if attributable to a fixed base or permanent establishment situated in a Contracting State, may be taxed in that State. All other gains, including gains from the sale of ships, aircraft and containers, and gains from the sale of stock in a corporation, are taxable only in the State of residence of the seller.

Article 7 of the proposed Convention generally follows the standard rules for taxation by one country of the business profits of a resident of the other. The source country's right to tax such profits is generally limited to cases in which the profits are attributable to a permanent establishment located in that country. As do all recent U.S. treaties, this Convention preserves the right of the United States to impose its branch taxes in addition to the basic corporate tax on a branch's business.

Under Article 8 of the proposed Convention, income from the operation of ships and aircraft in international traffic and from the use, maintenance or rental of containers used in international traffic is taxed in a manner consistent with the U.S. Model. Article 8 permits only the country of residence to tax profits from the international operation of ships or aircraft, including profits from the rental of ships and aircraft when the ship or aircraft is operated by the lessee in international traffic, or when the rental activity is incidental to the operation of ships or aircraft by the lessor. All income from the use, maintenance or rental of containers used in international traffic is likewise exempt from source-country taxation under the proposed Convention.

The taxation of income from the performance of personal services under Articles 14 through 16 of the New Convention is essentially the same as that under recent U.S. treaties with some

developing countries but grants a taxing right to the host country with respect to such income that is broader than in the OECD or U.S. Model treaties.

Article 17 of the proposed Convention contains significant anti-treaty-shopping rules making its benefits unavailable to persons engaged in treaty-shopping.

Rules necessary for administration, including rules for the resolution of disputes under the Convention and for exchange of information, are contained in Articles 26 and 27.

The Convention would permit the General Accounting Office and the tax-writing committees of Congress to obtain access to certain tax information exchanged under the Convention for use in their oversight of the administration of U.S. tax laws.

This Convention is subject to ratification. In accordance with the provisions of Article 29, it will enter into force when the Governments notify each other through diplomatic channels that their constitutional requirements for entry into force have been met. It will have effect for payments made or credit on or after the first day of January following entry into force with respect to taxes withheld by the source country; with respect to other taxes, the Convention will take effect for taxable periods beginning on or after the first day of January following the date on which the Convention enters into force.

The proposed convention will remain in force indefinitely unless terminated by one of the Contracting States, pursuant to Article 30. At any time after five years from the date on which the Convention enters into force, either Contracting State may terminate the Convention as of the end of a calendar year by giving notice of the termination through diplomatic channels at least six months prior to the end of that calendar year.

A Protocol accompanies and forms an integral part of the Convention.

The Department of the Treasury and the Department of State cooperated in the negotiation of the Convention. It has the full approval of both Departments.

Respectfully submitted,

MADELINE ALBRIGHT.

LETTER OF TRANSMITTAL

THE WHITE HOUSE, *June 29, 1999.*

To the Senate of the United States:

I transmit herewith for Senate advice and consent to ratification the Convention Between the Government of the United States of America and the Government of the Republic of Venezuela for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income and Capital, together with a Protocol, signed at Caracas on January 25, 1999.

Also transmitted is the report of the Department of State concerning the Convention.

This Convention, which is similar to tax treaties between the United States and other developing nations, provides maximum rates of tax to be applied to various types of income and protection from double taxation of income. The Convention also provides for resolution of disputes and sets forth rules making its benefits unavailable to residents that are engaged in treaty shopping.

I recommend that the Senate give early and favorable consideration to this Convention and that the Senate give its advice and consent to ratification.

WILLIAM J. CLINTON.

CONVENTION BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE REPUBLIC OF VENEZUELA FOR THE AVOIDANCE OF DOUBLE TAXATION AND THE PREVENTION OF FISCAL EVASION WITH RESPECT TO TAXES ON INCOME AND CAPITAL

The Government of the United States of America and the Government of the Republic of Venezuela, desiring to conclude a convention for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on income and capital, have agreed as follows:

ARTICLE 1
General Scope

1. This Convention shall apply to persons who are residents of one or both of the Contracting States, except as otherwise provided in the Convention.
2. The Convention shall not restrict in any manner any exclusion, exemption, deduction, credit, or other allowance now or hereafter accorded:
 - a) by the laws of either Contracting State; or
 - b) by any other agreement between the Contracting States.
3. Notwithstanding the provisions of subparagraph 2 b):
 - a) the provisions of Article 26 (Mutual Agreement Procedure) of this Convention exclusively shall apply to any dispute concerning whether a measure is within the scope of this Convention, and the procedures under this Convention exclusively shall apply to that dispute; and
 - b) unless the competent authorities determine that a taxation measure is not within the scope of this Convention, the non-discrimination obligations of this Convention exclusively shall apply with respect to that measure, except for such national treatment or most-favored-nation obligations as may apply to trade in goods under the General Agreement on Tariffs and Trade. No national treatment or most-favored-nation obligation under any other agreement shall apply with respect to that measure.

c) For the purpose of this paragraph, a “measure” is a law, regulation, rule, procedure, decision, administrative action, or any similar provision or action.

4. Notwithstanding any provision of the Convention except paragraph 5 of this Article, a Contracting State may tax its residents (as determined under Article 4 (Residence)), and by reason of citizenship may tax its citizens, as if the Convention had not come into effect.

5. The provisions of paragraph 4 shall not affect:

a) the benefits conferred by a Contracting State under paragraph 2 of Article 9 (Associated Enterprises), and under Articles 24 (Relief from Double Taxation), 25 (Non-Discrimination), and 26 (Mutual Agreement Procedure); and

b) the benefits conferred by a Contracting State under Articles 20 (Government Service), 21 (Students, Trainees, Teachers and Researchers), and 28 (Diplomatic Agents and Consular Officers), upon individuals who are neither citizens of, nor have immigrant status in, that State.

ARTICLE 2 Taxes Covered

1. The existing taxes to which this Convention shall apply are:

a) in Venezuela: the tax on income and the business assets tax;

b) in the United States: the Federal income taxes imposed by the Internal Revenue Code (but excluding social security contributions).

2. The Convention shall apply also to any identical or substantially similar taxes that are imposed after the date of signature of the Convention in addition to, or in place of, the existing taxes. The competent authorities of the Contracting States shall notify each other of any significant changes that have been made in their respective taxation laws and of any official published material concerning the application of the Convention.

ARTICLE 4

Residence

1. For the purposes of this Convention, the term “resident of a Contracting State” means:

a) in the case of the United States, any person who, under the laws of the United States, is liable to tax therein by reason of his domicile, residence, citizenship, place of incorporation, or any other criterion of a similar nature. The term includes an individual who is a United States citizen or an alien lawfully admitted to the United States for permanent residence (a “green card” holder) and who is not a resident of Venezuela under paragraph 1 b) only if the individual has a permanent home or habitual abode in the United States.

b) in the case of Venezuela, any resident individual (“*domiciliado*”), any legal person that is created or organized under the laws of Venezuela, and any entity or collectivity (“*entidad o colectividad*”) formed under the laws of Venezuela which is not a legal person but is subject to the taxation applicable to corporations in Venezuela.

2. An item of income, profit or gain derived through an entity that is fiscally transparent under the laws of either Contracting State shall be considered to be derived by a resident of a

State to the extent that the item is treated for purposes of the taxation law of such Contracting State as the income, profit or gain of a resident.

3. Where by reason of the provisions of paragraph 1, an individual is a resident of both Contracting States, then his status shall be determined as follows:

4. Where, by reason of the provisions of paragraph 1, a person other than an individual is a resident of both Contracting States, the competent authorities of the Contracting States shall endeavor to settle the question by mutual agreement and determine the mode of application of the Convention to such person. If they are unable to make such a determination, such person shall not be considered a resident of either Contracting State for purposes of enjoying benefits under this Convention.

ARTICLE 5

Permanent Establishment

1. For the purposes of this Convention, the term “permanent establishment” means a fixed place of business through which the business of an enterprise is wholly or partly carried on.

2. The term “permanent establishment” includes especially:

a) a place of management;

b) a branch;

c) an office;

d) a factory;

e) a workshop; and

f) a mine, an oil or gas well, a quarry, or any other place of extraction of natural resources.

3. The term “permanent establishment” likewise encompasses:

a) A building site or construction or installation project, or an installation or drilling rig or ship used for the exploration of natural resources, but only where such site, project or activities continue for a period or periods aggregating more than 183 days within any twelve month period commencing or ending in the taxable year concerned; and

b) The furnishing of services, including consultancy services, by an enterprise through employees or other personnel engaged by the enterprise for such purpose, but only where activities of that nature continue (for the same or a connected project) within the country for a period or periods aggregating more than 183 days in any twelve month period commencing or ending in the taxable year concerned.

4. Notwithstanding the preceding provisions of this Article, the term “permanent establishment” shall be deemed not to include:

a) the use of facilities solely for the purpose of storage, display, or delivery of goods or merchandise belonging to the enterprise;

b) the maintenance of a stock of goods or merchandise belonging to the enterprise solely for the purpose of storage, display, or delivery;

c) the maintenance of a stock of goods or merchandise belonging to the enterprise solely for the purpose of processing by another enterprise;

d) the maintenance of a fixed place of business solely for the purpose of purchasing goods or merchandise, or of collecting information, for the enterprise;

e) the maintenance of a fixed place of business solely for the purpose of carrying on, for the enterprise, any other activity of a preparatory or auxiliary character;

f) the maintenance of a fixed place of business solely for any combination of the activities mentioned in subparagraphs a) to e), provided that the overall activity of the fixed place of business resulting from this combination is of a preparatory or auxiliary character.

5. Notwithstanding the provisions of paragraphs 1 and 2, where a person – other than an agent of an independent status to whom paragraph 6 applies – is acting on behalf of an enterprise and has and habitually exercises, in a Contracting State an authority to conclude contracts in the name of the enterprise, that enterprise shall be deemed to have a permanent establishment in that State in respect of any activities which that person undertakes for the enterprise, unless the activities of such person are limited to those mentioned in paragraph 4 which, if exercised through a fixed place of business, would not make this fixed place of business a permanent establishment under the provisions of that paragraph.

6. An enterprise shall not be deemed to have a permanent establishment in a Contracting State merely because it carries on business in that State through a broker, general commission agent, or any other agent of an independent status, provided that such persons are acting in the ordinary course of their business. However, when the activities of such an agent are devoted wholly or almost wholly on behalf of that enterprise and the transactions between the agent and the enterprise are not made under arm’s length conditions, he shall not be considered an agent of independent status within the meaning of this paragraph.

7. The fact that a company which is a resident of a Contracting State controls or is controlled by a company which is a resident of the other Contracting State, or which carries on business in that other State (whether through a permanent establishment or otherwise), shall not of itself constitute either company a permanent establishment of the other.

ARTICLE 6
Income from Immovable Property (Real Property)

1. Income derived by a resident of a Contracting State from immovable property (real property), including income from agriculture or forestry, situated in the other Contracting State may be taxed in that other State.

2. The term “immovable property (real property)” shall have the meaning that it has under the law of the Contracting State in which the property in question is situated. The term shall in any case include property accessory to immovable property (real property), livestock and equipment used in agriculture and forestry, rights to which the provisions of general law respecting landed property apply, usufruct of immovable property (real property) and rights to variable or fixed payments as consideration for the working of, or the right to work, mineral deposits, sources and other natural resources. Ships, boats and aircraft shall not be regarded as immovable property (real property).

3. The provisions of paragraph 1 shall apply to income derived from the direct use, letting, or use in any other form of immovable property (real property).

4. The provisions of paragraphs 1 and 3 shall also apply to the income from immovable property (real property) of an enterprise and to income from immovable property (real property) used for the performance of independent personal services.

5. A resident of a Contracting State who is liable to tax in the other Contracting State on income from immovable property (real property) situated in the other Contracting State who is not otherwise allowed to compute the tax on such income on a net basis as if such income were business profits attributable to a permanent establishment in such other State shall be allowed to elect such treatment for any taxable year. Any such election shall be binding for the taxable year of the election and all subsequent taxable years unless the competent authority of the Contracting State in which the property is situated agrees to terminate the election.

ARTICLE 7
Business Profits

1. The business profits of an enterprise of a Contracting State shall be taxable only in that State unless the enterprise carries on business in the other Contracting State through a permanent establishment situated therein. If the enterprise carries on business as aforesaid, the business profits of the enterprise may be taxed in the other State, but only so much of them as are attributable to that permanent establishment.

2. Subject to the provisions of paragraph 4, where an enterprise of a Contracting State carries on business in the other Contracting State through a permanent establishment situated therein, there shall in each Contracting State be attributed to that permanent establishment the business profits which it might be expected to make if it were a distinct and independent enterprise engaged in the same or similar activities under the same or similar conditions.

3. Nothing in this Article shall affect the application of any law of a Contracting State relating to the determination of the tax liability of a person in cases where the information available to the competent authority of that State is inadequate to determine the profits to be attributed to a permanent establishment, provided that, on the basis of the available information, the determination of the profits of the permanent establishment is consistent with the principles stated in this Article.

4. In the determination of the business profits of a permanent establishment there shall be allowed as deductions expenses that are incurred for the purposes of the business of the permanent establishment, including executive and general administrative expenses so incurred, whether incurred in the State in which the permanent establishment is situated or elsewhere. However, no such deduction shall be allowed in respect of amounts, if any, paid (otherwise than towards reimbursement of actual expenses) by the permanent establishment to the head office of the enterprise or any of its other offices, by way of royalties, fees or other similar payments in return for the use of patents or other rights, or by way of commission for specific services performed or for management, or by way of interest on moneys lent to the permanent establishment. Likewise, no account shall be taken, in the determination of the business profits of a permanent establishment, for amounts charged (otherwise than towards reimbursement of actual expenses), by the permanent establishment to the head office of the enterprise or any of its other offices, by way of royalties, fees or other similar payments in return for the use of patents or other rights, or by way of commission for specific services performed or for management, or by way of interest on moneys lent to the head office of the enterprise or any of its other offices. A Contracting State may, consistent with its law, impose limitations on deductions, so long as these limitations are consistent with the concept of net income.

5. No business profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the enterprise.

6. For the purposes of this Convention, the business profits to be attributed to the permanent establishment shall include only the profits or losses derived from the assets or activities of the permanent establishment and shall be determined by the same method year by year unless there is good and sufficient reason to the contrary.

7. Where business profits include items of income which are dealt with separately in other Articles of the Convention, the provisions of those Articles shall not be affected by the provisions of this Article.

8. In applying paragraphs 1 and 2 of Article 7 (Business Profits), paragraph 6 of Article 10 (Dividends), paragraph 6 of Article 11 (Interest), paragraph 4 of Article 12 (Royalties), paragraph 3 of Article 13 (Gains), Article 14 (Independent Personal Services) and paragraph 2 of Article 22 (Other Income), any income or gain attributable to a permanent establishment or fixed base during its existence is taxable in the Contracting State where such permanent establishment or fixed base is situated even if the payments are deferred until such permanent establishment or fixed base has ceased to exist.

ARTICLE 8
Shipping and Air Transport

1. Profits of an enterprise of a Contracting State from the operation of ships or aircraft in international traffic shall be taxable only in that State.

2. For the purposes of this Article, profits from the operation of ships or aircraft include profits derived from the rental of ships or aircraft on a full (time or voyage) basis. They also include profits from the rental of ships or aircraft on a bareboat basis if such ships or aircraft are operated in international traffic by the lessee, or if the rental income is incidental to profits from the operation of ships or aircraft in international traffic. Profits derived by an enterprise from the inland transport of property or passengers within either Contracting State shall be treated as profits from the operation of ships or aircraft in international traffic if such transport is undertaken as part of international traffic.

3. Profits of an enterprise of a Contracting State from the use, maintenance, or rental of containers (including trailers, barges, and related equipment for the transport of containers) used in international traffic shall be taxable only in that State.

4. The provisions of paragraphs 1 and 3 shall also apply to profits from participation in a pool, a joint business, or an international operating agency.

ARTICLE 9
Associated Enterprises

1. Where:

- a) an enterprise of a Contracting State participates directly or indirectly in the management, control or capital of an enterprise of the other Contracting State; or
- b) the same persons participate directly or indirectly in the management, control, or capital of an enterprise of a Contracting State and an enterprise of the other Contracting State,

and in either case, conditions are made or imposed between the two enterprises in their commercial or financial relations which differ from those that would be made between independent enterprises, then any profits that, but for those conditions, would have accrued to one of the enterprises, but by reason of those conditions have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

2. Where a Contracting State includes in the profits of an enterprise of that State, and taxes accordingly, profits on which an enterprise of the other Contracting State has been charged to tax in that other State, and the profits so included are profits that would have accrued to the enterprise of the first-mentioned State if the conditions made between the two enterprises had been those that would have been made between independent enterprises, then that other State, if it agrees with such adjustment, shall make a corresponding adjustment to the amount of the tax charged therein on those profits. In determining such adjustment, due regard shall be paid to the

other provisions of this Convention and the competent authorities of the Contracting States shall if necessary consult each other.

3. The provisions of paragraph 1 shall not limit any provisions of the law of either Contracting State that permit the distribution, apportionment, or allocation of income, deductions, credits, or allowances between persons, whether or not residents of a Contracting State, owned or controlled directly or indirectly by the same interests when necessary in order to prevent evasion of taxes or clearly to reflect the income of any such persons.

ARTICLE 10

Dividends

1. Dividends paid by a company that is a resident of a Contracting State to a resident of the other Contracting State may be taxed in that other State.

2. However, such dividends may also be taxed in the Contracting State of which the company paying the dividends is a resident, and according to the laws of that State, but, except as provided in paragraph 3, if the beneficial owner of the dividends is a resident of the other Contracting State, the tax so charged shall not exceed:

- a) 5 percent of the gross amount of the dividends if the beneficial owner is a company that owns at least 10 percent of the voting stock of the company paying the dividends;
- b) 15 percent of the gross amount of the dividends in all other cases.

This paragraph shall not affect the taxation of the company in respect of the profits out of which the dividends are paid.

3. Subparagraph a) of paragraph 2 shall not apply in the case of dividends paid by a Regulated Investment Company (RIC) or a Real Estate Investment Trust (REIT). In the case of dividends paid by a RIC, subparagraph b) of paragraph 2 shall apply. In the case of dividends paid by a REIT, subparagraph b) of paragraph 2 also shall not apply unless:

- a) the beneficial owner of the dividends is an individual holding an interest of not more than 10 percent of the REIT;
- b) the dividends are paid with respect to a class of stock that is publicly traded and the beneficial owner of the dividends is a person holding an interest of not more than 5 percent of any class of the REIT's stock; or
- c) the beneficial owner of the dividends is a person holding an interest of not more than 10 percent of the REIT and the REIT is diversified.

4. Notwithstanding paragraph 2, dividends may not be taxed in the Contracting State of which the company paying the dividends is a resident if the beneficial owner of the dividends is the other Contracting State or a political subdivision or local authority thereof or a resident of the other Contracting State that is a governmental entity constituted and operated exclusively to administer or provide pension benefits, provided in each case that the dividends are not derived from carrying on a trade or business or from an associated enterprise.

5. The term “dividends” as used in this Article means income from shares or other rights, not being debt-claims, participating in profits, as well as income from other corporate rights that is subjected to the same taxation treatment as income from shares by the laws of the State of which the company making the distribution is a resident. The term “dividends” also includes income from arrangements, including debt obligations, carrying the right to participate in, or determined with reference to, profits to the extent so characterized under the laws of the Contracting State in which the income arises.

6. The provisions of paragraphs 1 and 2 shall not apply if the beneficial owner of the dividends, being a resident of a Contracting State, carries on business in the other Contracting State of which the company paying the dividends is a resident, through a permanent establishment situated therein, or performs in that other State independent personal services from a fixed base situated therein, and the dividends are attributable to such permanent establishment or fixed base. In such case the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.

7. A Contracting State may not impose any tax on dividends paid by a company that is a resident of the other Contracting State, except insofar as the dividends are paid to a resident of that State or the dividends are attributable to a permanent establishment or a fixed base situated in that State.

ARTICLE 11

Interest

1. Interest arising in a Contracting State and derived by a resident of the other Contracting State may be taxed in that other State.

2. However, such interest may also be taxed in the Contracting State in which it arises and according to the laws of that State, but if the beneficial owner of the interest is a resident of the other Contracting State, the tax so charged shall not exceed:

- a) 4.95 percent of the gross amount of the interest if the interest is beneficially owned by any financial institution (including an insurance company); and
- b) 10 percent in all other cases.

3. Notwithstanding the provisions of paragraph 2, interest arising in a Contracting State shall be exempt from tax in that State if:

- a) the interest is paid by that State or a political subdivision or local authority thereof;
- b) the beneficial owner of the interest is the other Contracting State or a political subdivision or local authority thereof or an instrumentality wholly owned by that other State; or
- c) the beneficial owner of the interest is a resident of the other State and the interest is paid with respect to debt obligations that have been made, guaranteed or insured, directly or indirectly, by that other State or a wholly owned instrumentality thereof.

4.
 - a) Notwithstanding the provisions of paragraph 2, interest paid by a resident of a Contracting State and that is determined with reference to receipts, sales, income, profits or other cash flow of the debtor or a related person, to any change in the value of any property of the debtor or a related person or to any dividend, partnership distribution or similar payment made by the debtor to a related person, and paid to a resident of the other State also may be taxed in the Contracting State in which it arises, and according to the laws of that State, but if the beneficial owner is a resident of the other Contracting State, the gross amount of the interest may be taxed at a rate not exceeding the rate prescribed in subparagraph b) of paragraph 2 of Article 10 (Dividends); and

8. Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the interest, having regard to the debt-claim for which it is paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In such case the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services), as the case may be, shall apply.

5. Royalties shall be deemed to arise in a Contracting State when they are in consideration for the use of, or the right to use, property, information or experience in that State.

6. Where, by reason of a special relationship between the payer and the beneficial owner or between both of them and some other person, the amount of the royalties, having regard to the use, right, or information for which they are paid, exceeds the amount which would have been agreed upon by the payer and the beneficial owner in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. 2. The appropriate authority of either Contracting State may request consultations with the appropriate authority of the other Contracting State to determine whether amendment to the Convention is appropriate to respond to changes in the law or policy of either Contracting State. If these consultations determine that the effect of the Convention or its application have been unilaterally changed by reason of domestic legislation enacted by a Contracting State such that the balance of benefits provided by the Convention has been significantly altered, the authorities shall consult with each other with a view to amending the Convention to restore an appropriate balance of benefits.

PROTOCOL

At the signing today of the Convention between the Government of the United States of America and the Government of the Republic of Venezuela for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income and Capital, the Contracting States have agreed upon the following provisions, which shall form an integral part of the Convention.

1. With reference to paragraph 4 of Article 1 (General Scope)

For purposes of U.S. tax, the term "citizen" shall include a former U.S. citizen whose loss of such status had as one of its principal purposes the avoidance of U.S. tax, but only for a period of 10 years following such loss.

2. With reference to paragraph 1a) and b) of Article 3 (General Definitions)

For the sole purposes of this Convention, when referred to in a geographical sense, Venezuela and the United States include the areas of the seabed and subsoil adjacent to their respective territorial seas in which they may exercise rights in accordance with domestic legislation and with international law.

3. With reference to paragraph 1 of Article 4 (Residence)

The term "resident of a Contracting State" shall also include:

- a) a Contracting State or a political subdivision or local authority thereof; and
- b) a pension trust or any other organization that is constituted and operated exclusively to provide pension benefits or for religious, charitable, scientific, artistic, cultural, or educational purposes and that is a resident of that State according to its laws, notwithstanding that all or part of its income may be exempt from income tax under the domestic law of that State.

4. With reference to subparagraph a) of paragraph 3 of Article 5 (Permanent Establishment)

a) It is understood that, if an enterprise (general contractor) that has undertaken the performance of a comprehensive project subcontracts parts of such project to a subcontractor, time spent by such subcontractor must be considered as time spent by the general contractor. The subcontractor has a permanent establishment only if its activities last more than 183 days in any twelve month period commencing or ending in the taxable

year concerned.

b) The 183 day period begins as of the date on which the construction activity itself begins; it does not take into account time spent solely on preparatory activities, such as obtaining permits.

5. With reference to paragraph 4 of Article 5 (Permanent Establishment)

It is understood that, in order for paragraph 4 of Article 5 (Permanent Establishment) to apply, the activities listed in subparagraphs 4 a) through f) and conducted by the resident of a Contracting State must each be of a preparatory or auxiliary character. Therefore, maintaining sales personnel in a Contracting State would not be an activity excepted under paragraph 4 and, subject to paragraphs 1, 5 and 6 of Article 5 (Permanent Establishment), would constitute a permanent establishment.

6. With reference to paragraph 4 of Article 7 (Business Profits)

Expenses allowed as a deduction include a reasonable allocation of expenses, including executive and general administrative expenses, research and development expenses, interest, and other expenses, incurred in the taxable year for the purposes of the enterprise as a whole (or the part thereof which includes the permanent establishment), regardless of where incurred, but only to the extent that such expenses have not been deducted by such enterprise and are not reflected in other deductions allowed to the permanent establishment, such as the deduction for the cost of goods sold or of the value of the purchases. The allocation of such expenses must be accomplished in a manner that reflects to a reasonably close extent the factual relationship between the deduction and the permanent establishment and the enterprise. In determining the allocation of a specific deduction to the permanent establishment, examples of bases and factors which may be considered include, but are not limited to:

- a) comparison of units sold,
- b) comparison of the amount of gross sales or receipts,
- c) comparison of costs of goods sold,
- d) comparison of profit contribution,
- e) comparison of expenses incurred, assets used, salaries paid, space utilized, and time spent which are attributable to the activities of the permanent establishment, and
- f) comparison of the amount of gross income.

Research and development expense incurred with respect to the same product line may be allocated to a permanent establishment based on a ratio of the gross receipts of the permanent establishment to the total gross receipts of the enterprise with respect to that product line. Venezuela will not provide a deduction with respect to any expenses allocable to income not subject to tax in Venezuela because of its territorial system of taxation.

7. With reference to Article 8 (Shipping and Air Transport)

The provisions of Article 8 (Shipping and Air Transport) shall not affect the provisions of the Agreement of December 29, 1987, between the Government of the United States of America and the Government of the Republic of Venezuela for the avoidance of double taxation with respect to shipping and air transport.

8. With reference to Article 10 (Dividends)

It is understood that the reference in Article 10 (Dividends) paragraph 4 to “a governmental

entity constituted and operated exclusively to administer or provide pension benefits” shall include, in the case of Venezuela, private, public or mixed entities operating under or pursuant to the Ley del Subsistema de Pensiones, enacted under the Ley Orgánica del Sistema de Seguridad Social Integral, so long as the system under which the entities are operating provides universal coverage; requires mandatory contributions by both employers and employees; limits the discretion of employers or employees to direct investment; restricts distributions or borrowings, directly or indirectly, except upon or until death, retirement or disability; and requires that accounts be maintained at only one such qualifying entity at a time. Such entities also must be operated, and their investment parameters established, pursuant to governmental oversight and regulation. The term also shall include any equivalent entities in the United States.

9. With reference to Article 11 (Interest)

The instrumentalities referred to in paragraph 3 shall include the U.S. Export-Import Bank, the Federal Reserve Banks and the Overseas Private Investment Corporation, the Venezuelan Banco de Comercio Exterior, the Banco Central de Venezuela and the Fondo de Inversiones de Venezuela and such other instrumentalities as the competent authorities may agree upon.

10. With reference to Article 11A (Branch Tax)

a) In the case of the United States the term “dividend equivalent amount” shall have the meaning it has under the laws of the United States, as it may be amended from time to time without changing the general principle thereof.

b) The term “excess interest” means the excess, if any, of:

i) interest deductible in one or more taxable years in computing the corporation’s profits that are either attributable to a permanent establishment in the other Contracting State or subject to tax in that other State under Article 6 (Income From Immovable Property (Real Property)) or Article 13 (Gains), over

ii) the interest paid by or from such permanent establishment or trade or business.

11. With reference to paragraph 3 of Article 12 (Royalties)

Payments received as consideration for technical services or assistance, including studies or surveys of a scientific, geological or technical nature, for engineering works including the plans related thereto, or for consultancy or supervisory services or assistance shall be considered payments to which the provisions of Article 7 (Business Profits) or Article 14 (Independent Personal Services) apply.

12. With reference to Article 14 (Independent Personal Services)

Article 14 (Independent Personal Services) shall be interpreted according to the Commentary on Article 14 (Independent Personal Services) of the 1992 Model Convention for the Avoidance of Double Taxation with Respect to Taxes on Income and on Capital of the Organization for Economic Cooperation and Development, and of any guidelines which, for the application of such Article, may be developed in the future. Accordingly, it is understood that the tax will be imposed on net income as if the income were attributable to a permanent establishment and taxable under Article 7 (Business Profits).

13. With reference to Article 15 (Dependent Personal Services) and Article 16 (Directors’ Fees)

The terms “similar remuneration” and “similar payments” include benefits in kind received in respect of an employment and any other benefits, whether or not considered as salary in the domestic legislation of both Contracting States (including, but not limited to, the use of a residence or automobile, health or life insurance coverage and club memberships, provision of meals, food and groceries, child care, reimbursement of medical, pharmaceutical and dental care expenses, provision of work clothing, toys and school supplies, scholarships, reimbursement of training course expenses, mortuary and burial expenses).

14. With reference to paragraph 3 of Article 17 (Limitation on Benefits)

The term “long-term resident” shall mean any individual who is a lawful permanent resident of the United States in 8 or more taxable years during the preceding 15 taxable years. In determining whether the threshold in the preceding sentence is met, there shall not count any year in which the individual is treated as a resident of Venezuela under this Convention, or as a resident of any country other than the United States under the provisions of any other tax treaty of the United States, and, in either case, the individual does not waive the benefits of such treaty applicable to residents of the other country.

15. With reference to paragraph 2 of Article 19 (Pensions, Social Security, Annuities, and Child Support)

The term “social security benefits” as used in this paragraph is intended to include United States tier 1 Railroad Retirement benefits.

16. With reference to Article 21 (Students, Trainees, Teachers and Researchers)

The amounts specified in paragraphs 1 b) iii) and 2 shall be in addition to any personal exemption otherwise allowed under the domestic law of that other Contracting State.

17. With respect to paragraph 1 of Article 25 (Non-Discrimination)

It is understood that a non-resident of a Contracting State who is subject to tax by that State on his worldwide income by reason of being a national thereof is not in the same circumstances as a non-resident of that State who is subject to tax on income only from sources in that State.

18. With respect to paragraph 2 of Article 26 (Mutual Agreement Procedure)

The competent authorities shall endeavor to resolve such cases as promptly as possible.

19. With respect to Article 27 (Exchange of Information)

It is understood that in order to comply with the provisions contained in Article 27 (Exchange of Information) the competent authorities of the Contracting States are empowered by their respective domestic laws to obtain information held by persons other than taxpayers, including information held by financial institutions, agents and trustees.

IN WITNESS WHEREOF, the undersigned, being duly authorized by their respective Governments, have signed this Protocol.
